502. Permitted Transactions.

(a) Execution.

- (i) Permitted Transactions shall be matched via the Electronic Order Book in accordance with the provisions of Rule 602, through Voice Functionality in accordance with Rule 702, or through the Request for Quote System in accordance with the provisions of Rule 702a. (b) Credit Approval for Uncleared Transactions.

that offers clearing of the Swap and to which both are a Clearing Member or have established a relationship with a Clearing Member, the Facility, on their behalf, will submit the transaction to the Clearing Organization where designated either directly or via an STP hub. Prior to such designated voluntary submission of such Swaps to a Clearing Organization, the transaction will be subject to the risk-based credit limit screening applicable to an Order as provided in Rule 501(d). - (b) Each Participant, Authorized Trader, other Supervised Person or Authorized Customer receiving any such information through the Trading System may redistribute such information only to such extent and in such manner as may be permitted by the Facility from time to time. Employees and agents of the Facility on reasonable notice under the circumstances shall have access to the offices of any Participant, Authorized Trader, other Supervised Person or Authorized Customer during regular business hours upon

reasonable prior notice to such Person and subject to such Person's reasonable security policies in order to observe the compliance by such Person with the immediately preceding sentence.

505. Pre-Execution Discussions and Cross Trades.

- (a) No Person shall enter a pre-discussed Required Transaction through the Electronic Trading System or through Voice Functionality for illegal or improper purposes (including, without limitation, any conduct prohibited by Part 9 of these Rules) or for a Required Transaction knowingly assume on its own behalf or on behalf of a Customer Account the opposite side of its own Order or its Customer's Order (a "Cross Trade"), except where the Person is entering into both sides of a Customer Order on a non-discretionary, pre-arranged basis, unless:
 - (i) Prior written blanket or transaction specific consent has been obtained in respect of any relevant Customer Account;
 - (ii) The Person waits for at least 15 seconds (or such other time as the Facility may publish from time to time for particular contracts based upon liquidity or such other product-specific considerations as may be permitted under Commission Rule 37.9(b)(2)) after the initial Order is submitted to the Trading System or Execution Specialist before submitting the opposite side;
 - (iii) The trade was matched but unable to be executed on a system or venue and was sent to the SEF for execution in accordance with Rule 603, as applicable;
 - (iv) As applicable, the trade is recognized as a qualifying block trade size in accordance with Rule 510.
- (b) Notwithstanding the foregoing, a Participant shall not be in violation of this rule due to Cross Trades executed by two Participants trading for the same account, or for separate accounts of the same Beneficial Ownership, where neither Participant has knowledge of the other's Order and there is no coordination or prearrangement of the Cross Trade, provided that the relevant Participant shall be responsible, upon the request of the Facility, to demonstrate to the reasonable satisfaction of the Facility, that neither Participant had knowledge of the other's Order.
- (c) For the avoidance of doubt, no delay in entering both sides of a pre-discussed Permitted Transaction or of a Cross Trade of a Permitted Transaction through the Electronic Trading System or through Voice Functionality is required. No Person shall enter a pre-discussed Permitted Transaction or Cross Trade in a Permitted Transaction for illegal or improper purposes (including, without limitation, any conduct prohibited by Part 9 of these Rules).

506. Allocation and Priority of Orders; No Withholding of Orders

- (a) Each Participant shall ensure that Orders are allocated to the appropriate accounts. Orders subject to allocation may be submitted through the Facility and allocated by a Participant in a manner permitted under Applicable Law. Notwithstanding anything to the contrary in Rule 506, the Commission provides relief in CFTC Letter No. 20-36 from the audit trail requirements in Commission regulation 37.205 until November 15, 2021, or such earlier date of a Commission action, including without limitation a rulemaking or order, providing a permanent solution for SEF audit trail obligations related to post-execution allocation information.
- (b) A Participant shall not withhold, cancel or withdraw from the Trading System any Order, or any part of an Order, for the benefit of any other Customer.
- (c) No Participant shall enter an Order into the Trading System or submit an Order to an Execution Specialist for its own account, an account in which it has a direct or indirect financial interest or a Discretionary Account, including, without limitation, an Order allowing discretion as to time and price, when such Participant is in possession of any Order for the benefit of a Customer that the Trading System is capable of accepting or which is capable of being traded in a Voice Trading Session, as applicable.
- (d) Post-trade allocations may be permitted under the rules of the applicable Clearing Organization and shall comply with the requirements of Commission Rule 1.35(b)(5). The following persons shall qualify as eligible to allocate trades after execution on the Facility:
 - (i) a commodity trading advisor registered with the Commission pursuant to the Act or excluded or exempt from registration under the Act or the Commission's rules, except for entities exempt under Commission Rule 4.14(a)(3);

507. Prohibited Bids and Offers.

It shall be prohibited for any Participant or Authorized Customer:

- (a) To enter, report or confirm any Bids, Offers or transactions to the Facility when such Participant or Authorized Customer knows or should have known that it is insolvent, within the meaning of any applicable bankruptcy or insolvency laws, federal or state, domestic or foreign, without the prior written approval of the Facility;
- (b) To enter, report or confirm Bids, Offers or transactions to the Facility other than in good faith for the purpose of executing transactions, or to make any Bid or offer that is not for a true and bona fide price or that is for the purpose of establishing a market price which does not reflect the true state of the market, or
- (c) Except in the case of a Block Trade conducted under the procedures of Rule 510 or an RFQ conducted under the procedures of Rule 702a, to buy a Swap at a higher price on the Trading System than the lowest available Offer price on the Trading System or to sell a cleared Swap at a price on the Trading System that is lower than the highest available Bid price on the Trading System for Swaps cleared at the same Clearing Organization, or assist in the execution of such a transaction on behalf of another on the Facility.

508. Orders Required to be Cleared.

It shall be prohibited for any Participant or Authorized Customer to place any orders for Swaps that are required to be cleared with or execute any transaction in Swaps through any Clearing Participant without the prior written consent of the Participant's Clearing Participant.

509. Limitation of Size of Orders.

In order to avoid error, the Electronic Trading System will prevent a Participant, an Authorized Customer, and their respective Authorized Traders from trading over a specified size, per side, per transaction and per Swap. Such size controls are not cumulative and may be exceeded through the entry of multiple Orders. No size limitation exists for voice transactions, Requests for Quotes under Part 702a of these Rules, or Block Trades under Rule 510.

510. Block Trades.

- (a) The Facility may designate any Swap as eligible for privately negotiated transactions, or "Block Trades," under this Rule and has determined the appropriate minimum block size for the Swaps in which Block Trades are permitted to be the same level as provided in 17 C.F.R. Appendix F to Part 43.
- (b) The price at which a Block Trade is executed shall not affect any Order in the Trading System.
- (c) Participants, Authorized Traders and Authorized Customers may elect to trade a Swap that has been designated by the Facility as eligible for Block Trades as a Block Trade

by entering the trade details into the trade entry window or by reporting such transaction to an Execution Specialist for trade entry. Block Trades shall comply with the following conditions:

- (i) each Block Trade transaction must be at least for the minimum transaction size as determined by the Facility for that Swap. Orders may not be aggregated in order to achieve the minimum transaction size.
 - (ii) the mutually agreed price at which a Block Trade is executed must be fair and reasonable in light of:
 - (A) the size of such Block Trade; and
 - (B) the price and size of other trades in the same Swap at the relevant time and other related Swaps, any underlying cash market and/or related futures markets, at the relevant time.
 - (iii) the price must be reasonable based upon market conditions, prices in other tenors or for related Swap contracts or based upon an established model for relating the relative prices between Swaps.
 - (iv) each party to a Block Trade must qualify as an “eligible contract participant,” as that term is defined in Section 1a(18) of the Act.
 - (v) the aggregation of orders for different accounts in order to satisfy the minimum block trade size is prohibited; *provided however*, that such aggregation is permitted for a Block Trade entered into on behalf of Customers by a commodity trading advisor registered (or exempt from registration) under the Commodity Exchange Act, including any investment advisor registered (or exempt from registration) under the Investment Advisors Act of 1940, or a foreign person performing a similar role or function subject as such to foreign regulation, with total assets under management exceeding \$25 million.
- (d) Each Block Trade must be reported by the seller to the Facility as soon as technologically practicable after execution but in no event later than 10 minutes following execution of such Block Trade. The Facility will publicize information identifying the trade as a Block Trade and identifying the relevant Swap immediately after such information has been reported to the Facility or at such time as is deemed appropriate by applicable regulations to that Swap.
- (e) Each party to a Block Trade shall record the following details of the transaction:
- (i) the Swap to which such Block Trade relates;
 - (ii) the nominal size of the Block Trade; and

- (iii) the price and time of execution, and the beneficial owners of the transaction.
- (f) Upon request by the Facility, such party shall produce satisfactory evidence, including the order ticket referred to in the preceding sentence that the Block Trade meets the requirements set forth in this Rule.
- (g) Notwithstanding anything to the contrary in this Rule 510, until December 30, 2022, or such later time as the relief in CFTC Letter No. 20-35 shall be extended, the Facility may facilitate the execution of Block Trades within the scope of this Rule 510 that are intended to be cleared by enabling the applicable Clearing Participants to complete the pre-execution credit check required under Commission Rule 1.73 pursuant to the procedures of Rules 501(d) and Rule 502(b)(ii) at the time a Block Trade is identified to the Facility. Execution of the Block Trade shall not occur until completion of the pre-execution credit check. Block Trades which are rejected on the basis of credit at the time that they are identified to the Facility shall be void *ab initio*.

511. Public Disclosure of Data.

- (a) If a registered SDR accepts data for an asset class, the Facility will report or cause to be reported to an SDR, such price and transaction data as required by Commission Regulations for all Swap transactions executed on or subject to the Rules of the Facility. The Facility reports such information to the following SDRs:

Swap	SDR
Credit Default Swap Indices	<u>DTCC</u>
Interest Rate Swaps	<u>DTCC</u>
Other	<u>DTCC</u>

- (b) The Facility shall disclose to all Participants on the Facility data regarding price, size and side of a Swap transaction executed via the Electronic Order Book, and may disclose such information for a transaction executed via Voice Functionality, upon transmittal of, or causing transmittal of, such information to the SDR.
- (c) Nothing in this rule 511 shall prohibit the Facility from disclosing:
 - (i) to all Participants on the Facility Orders, including price and side information, prior to a trade being executed; or,
 - (ii) to the counterparties to an executed trade, price, size or any other material terms of their executed transaction prior to transmittal of the information to an SDR and its public disclosure by the Facility.

512. Off-facility Transactions by Brokers

The Facility may record a Permitted Transaction arranged as an Off-facility Transaction by one or more Broker as being executed subject to the rules of the Facility, if the following conditions are met:

- (a) The Participants have provided blanket or transaction-specific consent to entering into a Permitted Transaction arranged by a Broker(s);
- (b) All of the terms of the Permitted Transactions are agreed by the Participants prior to the Broker reporting the Permitted Transaction to the Facility; *provided however*, the transaction shall not be considered to be executed until accepted by the Facility;
- (c) The Broker reports the terms of the Permitted Transaction in the form and manner specified by the Facility as soon as practicable, but in no event more than 15 minutes, following agreement of the Participants to the terms of the transaction;
- (d) If the transaction is to be cleared, it complies with Part 8 of the rules insofar as applicable to the transaction;
- (e) If the transaction is to be cleared, each applicable Clearing Participant, in accordance with Commission Regulation 1.73, shall establish and apply risk-based limits in respect of such Participant and, as facilitated by the Facility, shall screen such Off-facility Transaction for compliance with the limits through an automated or non-automated system of risk controls reasonably designed to ensure compliance with the limits;
- (f) The transaction may not be entered into for illegal or improper purposes (including, without limitation, any conduct prohibited by Part 9 of these Rules);
- (g) The Broker must keep full, complete and systematic records of the transaction as required by Commission Rule 1.35
- (h) The Broker(s) arranging the transaction shall be responsible, upon the request of the Facility or its Regulatory Services Provider, to demonstrate to the reasonable satisfaction of the Facility that the transaction complies with the conditions of the Act, Commission Rules and the conditions of this Rule 512, including making available to the Facility or the NFA acting in its capacity as a Regulatory Services Provider, upon request access to the Broker's records relating to the transaction.

513. Package Transactions.

A package transaction is a multi-leg transaction priced or quoted as one economic transaction, involving at least one Swap. For all package transactions, the Facility's audit trail records shall identify the Swap transaction(s) as being priced under the procedures of this Rule. The Swap leg or legs of a package transaction may be executed by the Facility subject to the following conditions.

(a) *U.S. Dollar Swap Spread.*

- (i) A U.S. Dollar Swap Spread is a transaction in a U.S. Dollar Swap traded as a spread price between a U.S. Treasury security transaction and the Swap. U.S. Dollar Swaps are available for trading as a spread transaction via:
 - (A) the Electronic Order Book under Rule 602(a) of the Rules, including but not limited to Electronic Order Book Trading Session (Rule 602(a)), Volume Clear Trading (Rule 602(b)), Volume Match Trading Facility (Rule 602(c), and Assisted Order Entry (Rule 607);
 - (B) Voice Functionality under Part 7, including but not limited to Regular Voice Trading Facility (Rule 703(a)), Voice Work-up (Rule 703(a)(v)), Technology-Assisted Voice Trading Facility (703(b)), Volume Match Voice Trading Facility (Rule 703(c)(ii)) of the Rules;
 - (C) Pre-execution discussed and crossed trades under Rule 505, and
 - (D) Request for Quotes under Part 7a of the Rules.
- (ii) In a U.S. Dollar Swap Spread, a buyer (seller) enter Bids (Offers) for a U.S. Dollar Swap based upon a spread value and transaction size. When entering a Bid (Offer) such Orders shall be subject to the pre-trade credit check under Rule 501(d). Upon a buyer and seller being matched by the Facility, the Facility notifies them of the prevailing cash market price for the indicated Treasury security, identifies each to the other (if not already so identified), and executes a U.S. Dollar Interest Rate Swap between the Participants at a price calculated by the Facility derived from the prevailing cash market price for the Treasury security which has been communicated to the parties and the matched spread value. The parties to the Swap subsequently enter into a separate cash market transaction bilaterally for the Treasury security at the prevailing cash market price.
- (iii) For the avoidance of doubt, the Facility takes no part in facilitating cash market Treasury security transactions. However, nothing in these Rules prohibits parties to the Swap from using the Facility's affiliated broker-dealer to assist in arranging the cash market transaction in Treasury securities related to their U.S. Dollar Swap Spread transaction. In this regard, the Facility's affiliated broker-dealer stands ready to enter into a cash market Treasury security transaction with each of the original parties to the Dollar Swap Spread where the parties do not enter into a transaction for the offer or sale of the Treasury security with each other..

- (b) *MAT/MAT*. A MAT/MAT package consists of two (or more) Required Transaction legs of the same Swap but of different tenors, traded based upon the spread value of the defined relationship of the legs. When entering a Bid (Offer) such Orders shall be subject to the pre-trade credit check under Rule 501(d). A MAT/MAT package can be traded via any of the functionalities or facilities provided in paragraph (a)(i)(A),(B) and (C) of this Rule. Upon being matched based upon the spread value, the Facility executes the two legs of the transaction at a price calculated by the Facility derived from the prevailing price for the shorter tenor leg.
- (c) *MAT/Non-MAT (Cleared)*. A MAT/Non-MAT (Cleared) package consists of at least one Required Transaction and one (or more) cleared Permitted Transaction based upon the spread value of the defined relationship of the legs. When entering a Bid (Offer) such Orders shall be subject to the pre-trade credit check under Rule 501(d). A MAT/Non-MAT (Cleared) package can be traded via any of the functionalities or facilities provided in paragraph (a)(i)(A),(B) and (C) of this Rule. Upon being matched based upon the spread value, the Facility executes the two legs of the transaction at a price calculated by the Facility derived from the prevailing price for the Required Transaction leg.
- (d) *MAT/Non-MAT (Uncleared)*. As permitted under Commission Rules 37.9(d) and 37.9(a)(2) and as pursuant to 37.9(c)(2), a package transaction consisting of one or more Swaps that include both a Required Transaction and an uncleared Permitted Transaction shall be subject to the procedures of Rule 512.
- (e) *MAT/Non-Swap Instruments*. As permitted under Commission Rules 37.9(d) and 37.9(a)(2) and as pursuant to 37.9(c)(2), the Required Transaction leg or legs of a package transaction that consists of one or more Required Transaction and one or more non-Swap instrument, shall be subject to the procedures of Rule 512; *provided however*, this provision shall not apply to U.S. Dollar Spreads which shall be subject to the procedures of paragraph (a).
- (i) The Broker, when reporting the Swap leg of the package to the Facility for execution shall also include the trade details of the non-Swap leg or legs of the package.
- (f) *MAT/Futures*. Until November 15, 2022, or such later time as the relief in CFTC Letter No. 20-31 may be extended, the Required Transaction leg or legs of a package transaction that consists of one or more Required Transaction and one or more are contracts for the purchase or sale of a commodity for future delivery, shall be subject to the procedures of Rule 512.
- (g) *MAT/Non-CFTC Swap*. As permitted under Commission Rules 37.9(d) and 37.9(a)(2) and as pursuant to 37.9(c)(2), the Required Transaction leg or legs of a package transaction that consists of one or more Required Transaction and one or more of the components is a swap over which the CFTC does not have exclusive jurisdiction, shall be subject to the procedures of Rule 512.
- (h) *Non-MAT(uncleared)/Non-MAT(uncleared)*. A Non-MAT(uncleared)/Non-

MAT(uncleared) package consists of two or more uncleared Permitted Transactions and shall be subject to the procedures of Rule 512.

- (i) *Non-MAT(uncleared)/Non-MAT(cleared)*. A Non-MAT(uncleared)/Non-MAT(cleared) package consists of two or more Permitted Transactions and shall be subject to the procedures of Rule 512.
- (j) For all package transactions, the Facility's audit trail records shall identify the Swap transaction(s) as being priced under the procedures of this Rule 513.

514. Trade Cancellations and Price Adjustments.

- (a) **Trade Cancellation, Amendment or Adjustment Authority.** The Facility's trade cancellation policy authorizes the Board, through its designee the Chief Compliance Officer (or the Chief Compliance Officer's delegate) (the "Designee"), to amend trade prices, cancel (bust) trades or to make such other adjustments when such action is necessary to mitigate market disrupting events; to mitigate instances where market integrity has been compromised caused by the improper or erroneous use of the Facility; or to address manifest unfairness caused by a material error of the Execution Specialist in Order handling or other material error by the Facility such as the incorrect display of a Bid or Offer, erroneous execution or erroneous reporting of a Swap transaction.
- (b) Notwithstanding any other provision of this Rule, the Designee may adjust trade prices, cancel any trade executed through the Facility, execute a new or off-setting swap on behalf of the parties to a disputed transaction on the Facility or another SEF, or require the parties to execute a new or off-setting swap transaction on the Facility or another SEF, if the Designee determines that allowing the trade to stand as executed may have a material, adverse effect on the integrity of the market or is otherwise necessary or appropriate to address manifest unfairness caused by a material error of the Execution Specialist or other material error by the Facility; provided, however, that any such determination by the Designee (if other than the Chief Compliance Officer) will be subject to review by the Chief Compliance Officer if the Designee determines such review to be necessary or appropriate. Subject to the immediately preceding sentence, the decision of the Designee shall be final.
- (c) Any trade price amendment, trade cancellation or other trade adjustment shall be made subject to the standards of this Rule 514, such standards being clear, fair, and publicly available. Any determination made under this Rule 514 to adjust any trade price, cancel any trade or make any other adjustment shall be made subject to the procedures of Rule 514(d), (e), (f) and (g) and announced to the market by a message from the Control Desk or such other method as the Facility shall provide.
- (d) **Procedure—Review of Trades Made in Erroneous Use of Facility or Resulting from Error of the Facility.** The Designee's decision on whether to cancel or amend a trade claimed to be made through erroneous use of the Facility or as a result of an error by the Execution Specialist or the Facility shall be made under the following procedure:

- (i) **Review of Trades.** The Designee may review a trade based on its analysis of market conditions or a request for review by a user of the Facility.
- (ii) **Request for Review.** A request for review must be made within 20 minutes from the execution of the trade. The request may be verbal, with a writing (which may be electronic) to follow within one hour from the execution of the trade. The request must specify the trade details, the time of its occurrence, the desired outcome (amend, cancel or other action) and the reason for such a request, including whether due to erroneous trading or a material error by the Execution Specialist in Order handling or other material error by the Facility such as the incorrect display of a Bid or Offer, erroneous execution or erroneous reporting of a Swap transaction.
- (iii) The Designee shall promptly determine whether the trade will be subject to review, and upon deciding to review a trade, the Designee will promptly notify the counterparties and issue an alert to all Participants and Sponsored Participants on the Facility indicating that the trade is under review. The Designee, in his or her discretion, may also notify the Compliance department of the requestor.

In the course of its review of any trade, the Designee may, but is not obligated to, inform any of the parties to the trade of the identity and contact information of any other party to the trade.

- (e) **Procedure—Review of Improper Trades.** The Designee’s decision on whether to cancel or amend a trade claimed to be improper shall be made under the following procedure:
 - (i) **Review of Trades.** The Designee may review a trade based on its analysis of market conditions or a request for review by a user of the Facility.
 - (ii) **Request for Review.** For trades claimed to be improper, a request for review must be made within 20 minutes from the execution of the trade. The request may be verbal, with a writing (which may be electronic) to follow within one hour from the execution of the trade. The request must specify the trade details, the time of its occurrence, the desired outcome (amend or cancel) and detail the basis on which the trade should be considered improper and the reason supporting the cancellation or amendment of such a trade. The written request must be countersigned by the customer desk head or a business individual with supervisory authority for the requestor. The Facility will make its determination based upon the request for review.
 - (iii) Upon receiving a written request to cancel or amend an improper trade, the Designee, in the Designee’s discretion, may offer the counterparty an opportunity to respond to the reasons cited in the written request that the trade was improper and to provide an explanation why the trade should not be considered to be improper; *provided however*, the counterparty shall not have a right to view the written request if the Designee shall in his or her

discretion determine that the contents or identity of the requestor should not be disclosed.

- (iv) The Designee, upon reviewing the written request for cancellation or amendment of an improper trade and any statement of the counterparty to the requestor will determine whether the trade on its face violated Applicable Law or these Rules and whether the trade affected the integrity of the market, including but not limited to whether the trade had a material adverse effect on market prices or orderly trading in the market.

(f) Designee's Determination.

- (i) The Designee shall communicate his or her determination to the parties whether to cancel the trade, amend or adjust the trade, to order such other actions as within the Facility's authority or to let the trade stand, and shall communicate his determination to the market.
- (ii) Upon a determination by the Designee that a trade shall be cancelled or amended the Facility shall implement the decision including as necessary or appropriate entering into new or off-setting Swap transactions on behalf of the parties or ordering the parties to do so.
- (iii) Issues of liability in cases where reasonable out-of-pocket losses have been incurred by Persons whose trades were cancelled or amended will be determined by the Designee based upon all relevant facts and circumstances, including the conduct of the respective parties. A party whose erroneous, or improper Order handling was the cause of the cancelled, amended or adjusted trade shall be liable for reasonable out-of-pocket losses of the counterparty to the transaction. Parties that know a transaction to be erroneous, improper or executed in error have an obligation to mitigate the loss.
 - (A) A claim for a loss pursuant to this Rule must be submitted to the Facility, on a Facility claim form, within five Business Days of the cancelled, amended or adjusted trade giving rise to the claim. The Facility shall reject any claim that is not permitted by this Rule and such decision shall be final. All claims which are not rejected by the Facility shall be forwarded to the party responsible for the Order(s) that resulted in the cancelled, amended or adjusted trade and that party shall, within ten Business Days of receipt of the claim, admit or deny responsibility in whole or in part.
 - (B) To the extent that liability is admitted, payment shall be made within ten Business Days. To the extent liability is denied, the claim shall be resolved by and pursuant to the arbitration rules of the NFA or such other self-regulatory organization as the parties may agree in accordance with the procedures of Part 11 of the Rules.

- (C) In the event that the error causing the loss was made by, or is the responsibility of, the Facility, the Facility in its sole discretion may take such steps as it deems necessary and appropriate to recompense the party or parties for their out-of-pocket loss.
- (g) **Trade Price Adjustment and Cancellation Process—Other Erroneous Trades.** The Designee will first determine whether the trade price is within the “No Review Range.” During fast market conditions, upon the release of significant news, or in other circumstances in which the Designee determines it is appropriate, and upon consultation with the Chief Compliance Officer, may without prior notice, temporarily increase the published No Review Range, up to an amount that is double the published range.
- (i) *Information considered.* In applying the No Review Range, the Designee shall determine the market price for that Swap immediately before the trade under review (the “Market Price”). The Designee may consider any relevant information, including the existing market conditions, the volatility of the market, the prices of related instruments in other markets, the last trade price on the Facility of the same or a related Swap, a better bid or offer price, a more recent price in a related Swap or related Swap tenor, and any other factors that the Designee deems relevant.
- (ii) *Trade Price Inside the No Review Range.* If the Designee determines that the price of the trade was inside the No Review Range, the Designee will promptly issue an alert to all Participants, Authorized Traders and Authorized Customers on the Electronic Trading System indicating that the trade shall stand.
- (iii) *Trade Price Outside the No Review Range.* If the Designee determines that a trade price is outside the applicable No Review Range, the trade price shall be adjusted to a price agreed upon in a reasonable time by a Person not responsible for an Order that results in a trade price adjustment that is within the No Review Range or in the absence of such agreement to a price that equals the Market Price for that Swap at the time of the questioned trade, plus or minus the standard or adjusted No Review Range, provided, however, that in the event that such adjusted price would be outside the trading range of the day at the time of the questioned trade, then such adjustment shall be limited to the trading range as applicable. In the event there are multiple parties, prices and/or Swaps involved in the transactions at issue, the Designee has the authority, but not the obligation, to bust rather than price adjust such transactions. The Designee will promptly issue an alert to all Participants, Authorized Traders and Authorized Customers on the Electronic Trading System indicating that the prices of the trades outside the No Review Range have been adjusted to the No Review Range limit or have been cancelled.

(h) **No Review Range.** The No Review Range shall be as follows:

Swap Contract	No Review Range (where a % is used, it is expressed as a % from the mid-market price)
CDS Indices CDS Single names	For all Credit Default Swap Index outright, rolls and spreads, a price which is of a certain percentage of mid-market spread price: CDX High Yield = 5% Investment Grade = 2.50% iTraxx X-over = 5% HiVol = 5% EUR Main = 2.5%...for a Swap above or below the prevailing mid-market price at the time will generally be considered to be a price within the no review range

GBP Interest rate Swap basis swaps	A price 1.5 basis points in yield above or below the prevailing mid-market price
GBP Interest Rate Swap spreads and butterfly strategies	A price 1 basis point in yield above or below the prevailing mid-market price

(i) **Liability for Losses Resulting from a Price Adjustment or Cancelled Trade.**

- (i) *Price-Adjusted Trades.* A Person responsible for an Order that results in a trade price adjustment shall generally not be liable for losses, other than the price adjustment, incurred by Persons whose trade prices were adjusted.
- (ii) *Cancelled Trades.* Issues of liability in cases where reasonable out-of-pocket losses have been incurred by Persons whose trades were cancelled will be determined by the Control Desk based upon all relevant facts and circumstances, including the conduct of the respective parties.

- (j) **Claim Process.** A claim for a loss pursuant to this Rule must be submitted to the Facility, on a Facility claim form, within five Business Days of the price-adjusted trade giving rise to the claim. The Facility shall reject any claim that is not permitted by this Rule and such decision shall be final. All claims which are not rejected by the Facility shall be forwarded to the party responsible for the Order(s) that resulted in a price adjustment. Such party shall, within ten Business Days of receipt of the claim, admit or deny responsibility in whole or in part.

To the extent that liability is admitted, payment shall be made within ten Business Days. To the extent liability is denied, the claim shall be resolved by and pursuant to the arbitration rules of the NFA or such other self-regulatory organization as the parties may agree in accordance with the procedures of Part 11 of the Rules.

- (k) **Trade Cancellation or Offset Procedures.** Upon a determination by the Designee that a trade shall be cancelled or that trade prices shall be adjusted, that decision will be implemented. The cancelled trade price and any price quotes that have been adjusted will be reflected as cancelled in the Facility's official record of time and sales.
- (l) **Adjustment Trades.** Positions that result from a trade determined by the Designee to be outside the No Review Range that cannot be cancelled shall be adjusted at the direction of the Facility, by entry of the Facility into new or off-setting trades as appropriate on behalf of the parties to the cancelled or adjusted trade or ordering such parties to enter into new or off-setting trades as directed by the Facility. The adjusting trades must use the original trade price and quantity. Any party may, but is not required to, include a cash adjustment to another party to the trade. Trades determined by the Designee to be inside the No Review Range may not be reversed in this manner.
- (m) **Arbitration of Disputes Regarding Adjustment Trade.** If a party does not agree to transfer a position pursuant to Rule 514(j), any other party to the trade may file an arbitration claim in accordance with the procedures of Part 11 of the Rules against the Person representing the other side of the trade. Written notice of such claim must be provided to the Facility within five Business Days of the execution of the trade. Failure to file the claim within five Business Days shall be deemed a waiver of all claims. The arbitration claim will be conducted in accordance with the procedures of Part 11 of the Rules.
- (n) **Voluntary Adjustment of Trade Price.** When a trade outside of the No Review Range is cancelled in accordance with this Rule, the parties to the trade may agree voluntarily to reestablish the trade but to adjust its price and make a cash adjustment provided that all of the following conditions are met:
- (i) the Designee approves the adjustment.
 - (ii) the trade adjustment must be within the range of the high and low of the previous day's price range.

- (iii) the quantity of the position being reestablished is the same as the quantity of the trade that was cancelled.
- (iv) in the case of a trade below the Market Price, the adjusted price must be the lowest price that traded at or about the time of the trade without being cancelled. In the case of a trade above the Market Price, the adjusted price must be the highest price that traded at or about the time of the trade without being cancelled.
- (v) the parties to the adjusted trade must report it to the Facility using a Transfer Trade not later than the close of business on the Business Day after the trade occurred.

515. Error Trades

- (a) **Scope.** In accordance with Commission Rules 37.9(e)(1)(ii) and 37.9(e)(2)(i), Rule 515 shall apply where an operational or clerical error omission made by the Facility, one of the counterparties, or an agent of the counterparty, causes a trade to be rejected from clearing, where one leg of a Package Transaction is rejected from clearing due to the sequencing of the submission of the legs (“Rejected Error Trade”), or is identified after the trade has been cleared (“Cleared Error Trade”)(together “Error Trades”). Legs of a Package Transaction that have been accepted for clearing are not within the scope of this Rule.
- (b) **Rejected Error Trades.** Upon an affirmative finding by the Facility that a trade has been rejected due to an error or an erroneous term other than for reasons of credit, the Rejected Error Trade shall be considered to be void *ab initio* and the Facility may execute a new trade with the original terms but for the correction of the erroneous terms and submit the new trade to the applicable DCO as quickly as technologically practicable, but in no event in more than 1 hour from the notice of rejection from clearing. The new trade shall be subject to the procedures of Rule 501(d) or Rule 502(b), as applicable. Any new trade which is also rejected is considered to be *void ab initio* and may not be submitted again.
- (c) **Cleared Error Trades.** Upon an affirmative finding by the Facility that a trade is being carried on the books of a DCO in error, in order to “reverse and resubmit” the trade in error, a trade to offset the Swaps carried in error on the books of the DCO shall be executed by the Facility and a new transaction shall be executed by the Facility with the original terms of the Cleared Error Trade but for the correction of the erroneous terms. Such correcting trades must be executed and submitted for clearing no later than three days from the execution of the Cleared Error Trade, with the exception provided in (d) (i). The new trade shall be subject to the procedures of Rule 501(d) or Rule 502(b), as applicable.
- (d) **Consent to correction of Error Trades.** In the event that an error comes to the attention of the Facility, the Facility may correct obvious errors under the procedures of

paragraph (b) or (c) of this Rule 515 without the consent or knowledge of the counterparties to the transaction. In the event that the Facility is unable to determine how to correct an Error Trade on its face, the Facility shall inform the counterparties to the trade and request their assistance in determining the nature and the substance of the error. The Facility may not correct such non-obvious errors unless the parties shall agree.

- (i) Alternatively, for cleared swaps, the Facility may use an *ex post facto* review process in which the counterparties determine that an error has occurred and correct the error. The offsetting trade and the correct transaction must be executed and submitted for clearing as quickly as technologically practicable, but no later than 24 hours after the erroneous cleared swap was executed.

The Participant must notify the Facility in writing, using the Facility contact email addresses located in www.bgcsef.com, no later than 24 hours after the error trade was executed. The Facility shall conduct an *ex post facto* review of the error trade, offsetting trade, and correct trade on a T+1 basis. Such review will consider whether a transaction cancellation or price adjustment will adversely impact market integrity, facilitate market manipulation or other illegitimate activity, or otherwise violate the CEA, Commission regulations, or the SEF's rules.

The SEF must make an affirmative finding that there was an error as part of its *ex post facto* review.

- (e) **Reporting.** The Facility shall report the following to an SDR as soon as technologically practicable after the original trade is rejected by the DCO:
 - (i) Cancellation of the original trade under part 43 of the Commission's rules;
 - (ii) A part 45 termination indicating that the original trade is void *ab initio*; and
 - (iii) Swap transaction data pursuant to Parts 43 and 45 for the newly executed trade(s).

516. Trade Affirmation.

- (a) When the Facility under Rule 802(b) or Rule 804(a) submits a trade to a Straight-Through-Processing (STP) hub following execution and prior to forwarding the trade to a DCO for clearing, each Participant, Sponsored Participant or Customer, as applicable, that is a counterparty to the trade shall affirm, or notify the Facility of an error in, the trade details as soon technologically practicable, but in no event later than 10 minutes from the time of execution of the trade.
- (b) Failure by the Participant, Sponsored Participant or Customer to affirm the trade details no later than 10 minutes from the time of execution shall constitute a violation

of this Rule 516 except:

- (i) When the Participant, Sponsored Participant or Customer has notified the Facility of an error within 10 minutes of execution; or
 - (ii) When the delay in affirming, or reporting an error in the trade details is caused by the Facility, the STP hub, an ISV or any event (such as loss of internet connectivity, power, or other force majeure) beyond the reasonable control of the Participant, Sponsored Participant or Customer used in the post-trade processing of trades.
- (c) Notwithstanding anything to the contrary in these Rules, the Facility in its discretion may initiate an investigation for violations of this rule by a Participant, Sponsored Participant or Customer in accordance with BGC Rulebook Part 10: Disciplinary Proceedings.

517. Post-Trade Anonymity.

- (a) Pursuant to the Commission issuing final rule § 37.9(d), it is prohibited to disclose, directly or indirectly, including through a third-party service provider, the identity of a counterparty for swaps executed, pre-arranged or pre-negotiated anonymously on or pursuant to the rules of a SEF and intended to be cleared at the time of execution.
- (b) Prohibition on post-trade name give-up shall not apply to components of a package transaction that are uncleared swaps or non-swap instruments. Examples include, but are not limited by, swaps executed with a US Treasury hedge cleared bilaterally between the counterparties, swaps executed as part of a hedge to an Interest Rate Option or Credit Option and swaps executed as part of a package with an uncleared swap.
- (c) The compliance date for swaps subject to the trade execution requirement under section 2(h)(8) of the CEA is November 1, 2020. The compliance date for swaps not subject to the trade execution requirement under section 2(h)(8) of the CEA is July, 5, 2021.

PART 6. TRADING VIA ELECTRONIC ORDER BOOK.

601. Scope.

The Facility shall determine the Swaps to be listed or offered for trading through the Electronic Order Book under this Chapter 6 and decide upon changes thereto.

602. Trade Execution via Electronic Order Book.

Transactions executed via the Electronic Order Book may be matched on the Trading System through any of Trading Sessions provided under paragraphs (a), (b), (c), or (d) of this Rule.

- (a) *Electronic Order Book Trading Session.* The Electronic Order Book Trading Session is a trading session that remains open throughout the Business Day. Except as expressly provided for by these Rules, all Orders are matched by the action of one Participant hitting (lifting) a displayed Bid (Offer) or by the Electronic Order Book matching electronically two passive orders that occur at the same price. The Electronic Order Book will display Orders anonymously based upon price/time priority, so that an Order at a better price will always have priority over Orders at inferior prices and resting Orders at the same price will be displayed on a time priority basis. Transactions in the Electronic Order Book Trading Session are based upon executable and indicative Orders.
 - (i) *Executable Orders.* Orders for Bids and Offers entered during Trading Hours shall be displayed by the Electronic Order Book in the priority of best price and earliest time entered. A trade is executed when a Participant electronically directs the Electronic Order Book to hit a Bid or lift an Offer that is not indicative. All Orders for Required Transactions are firm, i.e., executable, Orders.
 - (ii) *Indicative Orders.* Non-executable orders are labeled as Indicative Orders. Where present, Indicative Orders entered by the Facility do not include quantity. Indicative Orders entered by Participants or their Authorized Customers include quantity. An Indicative Order can be executed only following an expression of interest and the subsequent agreement of the Participant or its Authorized Customer to execute the transaction.

603. Orders.

- (a) **In General.**
 - (i) Orders may be entered into the Electronic Trading System only:
 - (A) in such form and during such times as the Facility shall prescribe;
 - (B) by a Participant, its Sponsored Participant s or by a Broker,

- (C) or by an Execution Specialist acting in his or her discretion pursuant to Rule 702(a)(vii) or at the direction of a Participant or a Sponsored Participant .
- (ii) Orders may contain such limitations and shall have such effect as determined and published by the Facility.
- (iii) Each Order entered into the Electronic Trading System must be in the form and contain the information the Facility requires, including, but not limited to, Order type, size, side, price (if applicable), and the applicable Commission Customer Type Indicator (CTI) Code. Any Order not complying with Facility requirements shall not be accepted.
- (iv) All Orders entered into the Electronic Trading System shall remain open in the Electronic Trading System until executed, withdrawn, cancelled or deleted. Such open Orders constitute the Electronic Order Book. Orders entered into the Electronic Trading System may be changed by the Participant, Authorized Customer, Authorized Trader or Execution Specialist entering the Order, but any change in the price or increase in quantity shall be treated as a new Order for the purpose of time priority.
- (v) Once the Facility receives notice from a Clearing Organization that a Clearing Participant has insufficient collateral or credit limit to clear the transaction, any Order or quote in the Electronic Trading System's Electronic Order Book for that Clearing Participant or for a Trading Participant guaranteed by that Clearing Participant and using that Clearing Organization is no longer in compliance with Facility requirements and shall be cancelled by the Facility.
- (vi) All Orders open at the end of the Business Day are cancelled.
- (vii) The Participant or Authorized Customer will be responsible for each Order that it enters on the Facility for itself or a Customer or which is entered on behalf of itself or a Customer . All Orders that have been entered on the Facility are subject to acceptance by other Participants, Sponsored Participants or Customers.

(b) Type of Orders and Order Attributes.

- (i) the following orders may be entered by a Participant into the Electronic Order Book:
 - (A) *Good until Bettered Orders. ("GTB")*. A good-until-bettered order is an order to buy or sell a stated amount of a Swap or strategy to be executed at the displayed price until bettered by another order (whether from the original participant or another) or until the order is cancelled by the Participant or System.
 - (B) *Limit Orders*. A limit order is an order to buy or sell a stated

amount of a Swap or strategy to be executed at the price stated in the order or better, such that the order will persist and not be removed from the System even if bettered and will remain in the System until executed or cancelled by the System or by the Participant, Authorized Customer, Authorized Trader or Execution Specialist.

- (C) *Fill and Kill (“FAK”) Orders.* A FAK order is a request to buy or sell on the System at a specific price that, if matched by a contra order, will initiate a trade and may be matched immediately in its entirety or partially. If the size of the FAK order exceeds the amount initially executed the order will be worked in the System to the extent other contra orders become available until that transaction is concluded. If there is no contra order at the same price when the FAK is entered into the System the FAK order is withdrawn. This order type is deployed in both the order book and auction events.
- (D) *Time in Force (“TIF”) Orders.* A TIF Order is a Limit Order that remains open for a period of time selected by the Participant, Sponsored Participant or Execution Specialist (at the request of the Participant or Sponsored Participant) when the Order is first entered. Unless the time is extended during the period when the order is firm, the Order is automatically cancelled at the end of that period. Any subsequent Bid or Offer, even at the same price, will be treated as a new Order.
- (E) The Good until Bettered and Limit Order types may also be used with the following order attributes:
 - (1) *One Cancels the Other (“OCO”).* An OCO order provides the Participant with the ability to enter multiple Bids and/or Offers into the System where orders may be linked to each other so that if any one order is executed upon, the Participant’s remaining orders referenced to that instrument within a pre-selected set of instruments will be cancelled. Normally these sets are configured to be in groups of Bids or groups of Offers in specific product sets.
 - (2) *All or None (“AON”).* An AON order provides Participants with the ability to restrict execution to all of the chosen order size, or none at all, such that partial execution is disallowed. Users of AON as an order type may be bypassed in some order matching scenarios where the system cannot match with the AON order where the available volume is less than the minimum size restriction on the order but can match with other participants instead who may show orders in smaller amounts or be willing to accept partial fills.

- (F) *AON Cross*. Following the pre-execution communication, as permitted under Rule 505, an All-Or-None Request for Cross (“AONX”), which contains both the buy and the sell orders, must be entered onto the Electronic Order Book, either by a party to the transaction or by an agent on behalf of the participants. Upon entry of the AONX, the Electronic Order Book will display an indication that a cross will occur in fifteen (15) seconds. If the AONX price improves both the best bid and best offer (or if there is no bid/offer) in the Electronic Order Book, after fifteen (15) seconds following the submission of the AONX, the full quantity will be matched at the AONX price. If the AONX price matches or is outside the best bid or offer in the Electronic Order Book, the applicable side of the AONX order will match against the order in the Electronic Order Book at a price better than or equal to the AONX price, at any point during the fifteen (15) second period, provided the Electronic Order Book quantity is the same or higher than the quantity of the AONX cross request. Immediately thereafter, any unexecuted order remaining in the AONX cross request will be cancelled.

 - (G) *Exchange Cross (X- Cross)*. Following the pre-execution communication, as permitted under Rule 505, a Request for Cross (“RFC”) order, which contains both the buy and the sell orders, must be entered onto the Electronic Order Book, either by a party to the transaction or by an agent on behalf of the participants. Upon entry of the RFC, the Electronic Order Book will display an indication that a cross will occur in fifteen (15) seconds. If the RFC price improves both the best bid and best offer (or if there is no bid/offer) in the Electronic Order Book, after fifteen (15) seconds following the submission of the RFC, all of the RFC quantity will match at the RFC price. If the RFC price matches, or is outside the best bid or offer in the Electronic Order Book once the fifteen (15) second period has expired following the submission of the RFC, the applicable side of the RFC order will match against the order in the Electronic Order Book at a price better than or equal to the RFC price. Immediately thereafter, the quantity remaining from the initial RFC order will match against the order on the opposite side of the RFC at the RFC price. Any unmatched balance from the initial RFC order will remain in the Electronic Order Book unless it is cancelled by the user.
- (ii) all orders are removed from the Electronic Order Book at the close of the Business Day.

604. Confirmations and Objections.

The confirmation of all terms of the transaction shall take place at the same time as execution; *provided however*, specific customer identifiers need not be included for accounts included in bunched orders meeting the requirements of Rule 506(d) and Commission Rule 1.35(b)(5). In accordance with Rule 517, confirmations for transactions executed anonymously will not reveal specific customer identifiers or counterparty names on the confirmation unless they contain components of a package transaction that are uncleared swaps or non-swap instruments.

- (a) **Confirmation of Cleared Transactions.** Upon execution, the Facility shall notify a Participant of the matching of Bids and Offers through the Electronic Trading System as follows.
- (i) Initial notification: Following trade matching, the Facility will send an initial written message, which writing may be electronic, which includes price and side information to both sides of a trade.
 - (ii) Confirmation: Upon execution of the transaction, the Facility will issue a written confirmation, which writing may be electronic, and which shall legally supersede any previous agreement, shall serve as a confirmation of the transaction, and that the counterparties agree shall confirm execution of the transaction, and which shall include all material economic details of the executed transaction.
- (b) **Confirmations for Uncleared Transactions.** The economic terms specific to the transaction agreed by the Participants on the Facility with respect to an uncleared transaction shall be reflected by the Facility in a written communication (the “Trade Communication”) sent to the applicable Participants. The Trade Communication, together with the documents and agreements (including, without limitation, ISDA master agreements, other master agreements, terms supplements, master confirmation agreements, and incorporated industry definitions) governing such transaction existing at the time of such commitment to which the participants are party (the “Terms Incorporated by Reference”) shall, taken together, comprise all of the terms of such transaction and serve as a confirmation of such transaction. Each Trade Communication is deemed to incorporate the Terms Incorporated by Reference and in the event of any conflict between the Trade Communication and the Terms Incorporated by Reference, the Trade Communication shall prevail to the extent of any inconsistency. The Facility shall issue a Trade Communication for uncleared transactions no later than 60 seconds after execution.
- (i) Participants must provide to the Facility a copy of the underlying previously-negotiated freestanding agreements (Terms Incorporated by Reference) upon the Facility’s request.
 - (ii) The Facility must request from one or more Participant the underlying previously-negotiated freestanding agreements upon request from the

Commission and the Facility must furnish such documents to the Commission as soon as such documents are available.

- (c) **Objections.** Objections to the contents of transaction confirmations must be submitted to the Facility, in writing, promptly upon receipt, but no later than the close of that Business Day.

605. Trade Invalidation upon Revocation of Clearing Authorization.

Once the Facility has received notice from a Clearing Organization that a Clearing Participant's authorization has been terminated, any trade destined for that Clearing Organization subsequently matched by the Electronic Trading System for that Clearing Participant or for a Trading Participant guaranteed by that Clearing Participant shall be considered to be invalid and shall be cancelled by the Facility.

606. Reserved

607. Assisted Order Entry.

An Execution Specialist acting on behalf of a Participant or an Authorized Customer using telephonic or other means of electronic communication may, upon request of the Participant or Authorized Customer, assist a Participant or Authorized Customer in the entry or withdrawal of Orders into the Electronic Trading System. Any Execution Specialist entering an Order into the Electronic Trading System shall have a unique User ID paired with the Participant's ID, (and Authorized Customer ID where applicable) for whom the Execution Specialist is acting.

- (a) Upon receipt of a request for assistance in the entry or withdrawal of an immediately executable or indicative Order, the Execution Specialist must enter the executable Order immediately into the Electronic Trading System.
- (b) Any request by a Participant for assistance in the entry of an Order that is not immediately executable shall be entered into the Electronic Trading System as soon as practicable. The Execution Specialist must make a record of the time at which the request for assistance was first made and the time that the Order was entered into the Electronic Trading System.
- (c) Notwithstanding any other provision of these Rules, in the event that a Participant objects under Rule 604(c) to the contents of a the confirmation of a transaction that has taken place through the assistance of an Execution Specialist under the provisions of this Rule, the Board, through its designee the Chief Executive Officer or the Chief Executive Officer's Designee (the "Designee"), is authorized in his or her discretion to adjust trade prices or cancel a trade when such action is necessary to correct a clear clerical error on the part of the Execution Specialist in carrying out the instructions of the Participant that is assisted by the Execution Specialist. Any trade price adjustment or trade cancellation shall be made subject to the standards of this rule. Any

determination made under this rule to adjust any trade price or cancel any trade shall be announced to the market and such adjustment shall be reported by the Facility to the SDR.

PART 7. TRADING VIA VOICE FUNCTIONALITY.

701. Scope.

The Facility shall determine the Swaps to be offered for trading on or subject to the Rules of the Facility through Voice Functionality and decide upon changes thereto.

702. Trade Execution via Voice Functionality.

- (a) Voice Trading is a Trading Facility, as defined by section 1a(51) of the Act, that enables multiple participants to offer Bids or Offers that are open to multiple participants through the use of telephone, electronic messaging or other communications devices acceptable to the Facility. Voice Trading is facilitated by an Execution Specialist who makes known to Participants the existence of trading interest in a Swap, facilitates the communication of Bids or Offers among multiple Participants, and assists in orderly trading on the Facility.
- (b) Technology-assisted Voice Trading on the Facility is a Voice Trading functionality which enables multiple participants to make available Bids or Offers to multiple participants facilitated by an Execution Specialist with the assistance of the automated functionalities provided for in this Rule.

703. Voice Trading Facility.

Transactions executed via Voice Functionality may be matched on the Facility through any of the Voice Trading Sessions provided under paragraphs (a), (b), (c) or (d), of this Rule.

- (a) **Regular Voice Trading Facility.** The Regular Trading Facility is a Trading Session that remains open throughout the Business Day.
 - (i) A Participant initiates the purchase or sale of a Swap by communicating an indication of interest, indicative Bid or Offer or executable Bid or Offer to the Execution Specialist for any Swap listed on, or offered by, the Facility for trading using Voice Functionality. Bids and Offers shall be considered to be firm at the time first communicated to the Execution Specialist and subsequently indicative unless the Participant confirms to the Execution Specialist that the Bid or Offer remains firm. An initiating Participant shall be anonymous unless the Participant authorizes the Execution Specialist to disclose the initiating Participant's identity. In the discretion of the Execution Specialist, where a new Bid or Offer is bid or offered into the market and it does not match a resting Offer or Bid, the Participant with the

resting Offer or Bid that is closest in price and then oldest in time to the new Bid or Offer, generally has priority in hitting the new Bid or lifting the new Offer.

- (ii) In the absence of an initiating Participant, the Execution Specialist has discretion to initiate trading by communicating with Participants to ascertain trading interest.
- (iii) A responding Participant may accept a firm Bid or Offer or counter the Bid or Offer or indication of interest of the initiating Participant or of any other responding Participant. For the avoidance of doubt, an executed transaction may take place between two responding Participants. Responding Participants shall be anonymous unless the responding Participant authorizes the Execution Specialist to disclose the Participant's identity.
- (iv) In order for trading to occur during a Regular Voice Trading Session there must be no fewer than four Participants participating.
- (v) **Voice Work-up.** In order to encourage the provision of liquidity to the Voice Trading Facility, following the execution of an initial transaction (which shall be indicated to the counterparties as having been executed by communication of the Execution Specialist) either of the parties to the executed transaction or any other market participant (following transmittal by the Facility to an SDR of information relating to the initial, executed transaction) may request a work-up trading session. To open a work-up trading session, the Execution Specialist announces the work up session and price. Counterparties to the initial transaction may have a priority for additional amounts at the work-up price. Resting Bids or Offers at the work-up price or better must be included in the work up session. During the work-up session, execution occurs at the time that a buyer and a seller agree on the quantity of their respective transaction (the price being the work-up price), such execution being indicated to the counterparties by communication of the Execution Specialist. Separate transactions entered into during the work-up process will not be confirmed or reported as a single aggregate transaction. The work-up shall end when, to the extent possible, all buying and selling interest at that price have been filled. Any unfilled Bid or Offer at that price at the conclusion of the work-up shall be treated as a resting Bid or Offer depending upon the instruction of the market participant.
- (vi) **Voice Orders for Required Transactions.** Notwithstanding anything to the contrary in these Rules, each Voice Order for a Required Transaction communicated by a Participant or Sponsored Participant (which includes their respective Authorized Trader(s)) to an Execution Specialist shall be subject to the following conditions:

- (A) The Order shall be considered to be firm from the time the Order is first communicated to the Execution Specialist for a period of 60 seconds (or such longer period as communicated to the Execution Specialist). *Provided however*, the Order shall no longer be considered to be firm during the remainder of that period, after:
- (1) The Participant's or Sponsored Participant's Order is filled;
 - (2) The Participant or Sponsored Participant communicates to the Execution Specialist that the Order is cancelled and such communication is received by the Execution Specialist prior to the Order having been filled, *provided however*, if the Order has been filled in part, only that part of the Order remaining unfilled shall be cancelled;
 - (3) The Participant or Sponsored Participant is filled in the same Swap for the same size but at a difference price as the original Order;
 - (4) A new Order at a better price in the same Swap is entered onto the Facility by the same or a different Participant or Sponsored Participant; or
 - (5) A Material Market Event occurs. A Material Market Event shall be determined in the sole discretion of the Facility and shall include, but not be limited to:
 - (i) Economic news releases by the U.S. Department of Labor Bureau of Labor Statistics;
 - (ii) Other recurring material economic news releases;
 - (iii) Announcements of the Board of Governors of the U.S. Federal Reserve System;
 - (iv) A natural or man-made disaster or a Force Majeure.
- (vii) **Hybrid Trading of Required Transactions.** The Execution Specialist, in his or her discretion, may enter any Voice Order communicated to the Execution Specialist into the Electronic Order Book Trading Session under Rule 602(a)(i) whenever there shall appear to be sufficient liquidity in the Electronic Order Book to fill the Order. Such Order shall be entered into the Electronic Order Book as a Time in Force ("TIF") Order where it shall remain a firm Order for a period of 60 seconds.

- (b) **Technology-Assisted Voice Trading Facility (“Whiteboard Trading”).** The Technology-Assisted Voice Trading Facility is a Trading Session that remains open throughout the Business Day. A Participant initiates the purchase or sale of a Swap through the Technology-Assisted Voice Trading Facility by requesting that the Execution Specialist enter an instrument description on the Whiteboard screen as an indication of interest.
- (i) **Bids and Offers.** Depending upon the Swap, which may include Option strategies or a Swap structure, the Execution Specialist, or the Participants themselves, may enter bids and offers. Bids and Offers entered onto a Whiteboard are considered to be indicative because they are subject to subsequent trade parameterization and credit checks.
- (c) **Request for Quote Voice Trading Facility.** A Request for Quote Voice Trading Facility Trading Session may be initiated as described in Rule 702a below.
- (d) **Order Types.** The following Orders may be entered by a Participant verbally to an Execution Specialist. Such Orders shall include the information the Facility requires, including, but not limited to, Order type, size, side, price (if applicable), and the applicable Commission Customer Type Indicator (CTI) Code. Any Order not complying with Facility requirements shall not be accepted by the Execution Specialist. Voice Functionality Orders include:
- (i) *Good until Bettered Orders. (“GTB”).* A good-until-bettered order is an order to buy or sell a stated amount of a Swap or strategy to be executed at the displayed price until bettered by another order (whether from the original participant or another) or until the order is cancelled by the Participant or System.
- (ii) *Limit Orders.* A limit order is an order to buy or sell a stated amount of a Swap or strategy to be executed at the price stated in the order or better, such that the order will persist and not be removed even if bettered and will remain until executed or cancelled by the Participant, Authorized Customer, Authorized Trader or Execution Specialist.
- (iii) *Fill and Kill (“FAK”) Orders.* A FAK order is a request to buy or sell on the System at a specific price that, if matched by a contra order, will initiate a trade and may be matched immediately in its entirety or partially. If the size of the FAK order exceeds the amount initially executed the order will be worked in the System to the extent other contra orders become available until that transaction is concluded. If there is no contra order at the same price when the FAK is entered into the System the FAK order is withdrawn. This order type is deployed in both the order book and auction events.
- (iv) *Time in Force (“TIF”) Orders.* A TIF Order is a Limit Order that remains open for a period of time selected by the Participant, Sponsored Participant or Execution Specialist (at the request of the Participant or Sponsored Participant) when the Order is first entered. Unless the time is extended during the period when the order is firm, the Order is automatically cancelled

at the end of that period. Any subsequent Bid or Offer, even at the same price, will be treated as a new Order.

- (v) the Good until Bettered and Limit Order types may also be used with the following Order attributes:
 - (A) *One Cancels the Other (“OCO”)*. An OCO order provides the Participant with the ability to enter multiple Bids and/or Offers into the System where orders may be linked to each other so that if any one order is executed upon, the Participant’s remaining orders referenced to that instrument within a pre-selected set of instruments will be cancelled. Normally these sets are configured to be in groups of Bids or groups of Offers in specific product sets.
 - (B) *All or None (“AON”)*. An AON order provides Participants with the ability to restrict execution to all of the chosen order size, or none at all, such that partial execution is disallowed. Users of AON as an order type may be bypassed in some order matching scenarios where the system cannot match with the AON order where the available volume is less than the minimum size restriction on the order but can match with other participants instead who may show orders in smaller amounts or be willing to accept partial fills.
- (vi) All Voice Orders shall remain open for such period as provided in Rule 703(a)(i) and (a)(vi). All Orders cease to be active at the close of the Business Day.

704. Confirmation of Voice Transactions and Objections.

The confirmation of all terms of the transaction shall take place at the same time as execution; *provided however*, specific customer identifiers need not be included for accounts included in bunched orders meeting the requirements of Rule 506(d) and Commission Rule 1.35(b)(5). In accordance with Rule 517, confirmations for transactions executed anonymously will not reveal specific customer identifiers or counterparty names on the confirmation unless they contain components of a package transaction that are uncleared swaps or non-swap instruments.

(a) Confirmation of Uncleared Transactions.

- (i) Initial notification: Upon initial indication of a match of any Permitted Transaction matched in a Voice Trading Session under Rule 702 or in a Request for Quote under Rule 702a, but prior to confirmation of the execution of the transaction, the matched transaction will be subject to the agreement of the parties as to trade structure parameters and to a manual credit check. The Facility will send an initial written message, which writing may be electronic, which includes price, side and structure parameter information to both sides of a matched trade or of each trade within a series of trades.

- (ii) **Confirmation:** Execution of a matched Permitted Transaction only takes place after the credit check is satisfactorily completed and the parameters of any structure are agreed to by the matched counterparties. At that time, the matched trade is executed and the Facility will issue a written confirmation of the transaction, which writing may be electronic, and which shall legally supersede any previous agreement, shall serve as a confirmation of the transaction, and that the counterparties agree shall confirm execution of the transaction, and which shall include all material economic details of the executed transaction.
- (iii) **Form and Content of Confirmation for Uncleared Transactions.** The form and content of the confirmation for uncleared Voice Transactions shall be the same as provided under Rule 604(c), the provisions of which are incorporated by reference herein. The Facility shall issue a confirmation of uncleared transactions no later than 60 seconds after execution.

(b) Confirmation of Cleared Transactions.

With respect to Cleared Transactions matched in a Voice Trading Session under Rule 702 or in a Request for Quote under Rule 702a, but prior to confirmation of the execution of the transaction, the matched transaction will be subject to the agreement of the parties as to trade structure parameters and to a manual credit check. Upon completion of the transaction, the Execution Specialist will key-in trade details and the Facility will issue a written confirmation of the executed trade, which writing may be electronic, and which shall legally supersede any previous agreement, shall serve as a confirmation of the transaction, and that the counterparties agree shall confirm execution of the transaction, and which shall include all material details, including all primary economic terms.

(c) Objections.

Objections to the contents of transaction confirmations must be submitted to the Facility, in writing, promptly upon receipt, but no later than the close of that Business Day. Notwithstanding any other provision of these Rules, in the event that a Participant objects under this section to the contents of the confirmation of a transaction that has taken place through Voice Functionality under Part 7 of these Rules, the Board, through its designee the Chief Executive Officer (or the Chief Executive Officer's delegate) (the "Designee"), is authorized in his or her discretion to adjust trade prices or cancel a trade when such action is necessary to correct a clear clerical error on the part of the Execution Specialist in facilitating trading via Voice Functionality. Any trade price adjustment or trade cancellation shall be made subject to the standards of this rule. Any determination made under this rule to adjust any trade price or cancel any trade shall be announced to the market by a message from the Control Desk or such other method as the Facility shall provide and such adjustment shall be reported by the Facility to the SDR.

705. Record-keeping and Reporting.

All Voice-assisted trading shall be recorded in an unalterable format and retained as required under Commission Rule 1.31. All Bids and Offers entered through the Whiteboard functionality will be retained in an unalterable format as required under Commission Rule 1.31. The Execution Specialist shall key-in the trade details of the transaction immediately upon execution. The Facility shall report publicly such transactions as having been executed on or subject to the rules of the Facility, identifying such transactions as Voice assisted transactions and, on behalf of the parties to the transaction, report the transaction to a Swap Data Repository as soon as technologically practicable after execution of the Swap pursuant to Commission Rule 45.3.

PART 7a TRADING VIA REQUEST FOR QUOTES (“RFQ”) FUNCTIONALITY.

701a. Scope.

The Facility shall determine the Swaps to be offered for trading on or subject to the Rules of the Facility through RFQ Functionality and decide upon changes thereto.

702a. Trade Execution via RFQ Functionality.

- (a) Participants or Authorized Customers may request that Bids or Offers from particular Participants or Authorized Customers be solicited
 - (i) for Swaps that are supported by the Electronic Trading System, by submitting the request directly into the Electronic Trading System or by requesting that an Execution Specialist, acting as agent, enter the RFQ into the Electronic Trading System on the Participant’s behalf; or
 - (ii) by requesting that the RFQ be conducted via Voice Functionality facilitated by an Execution Specialist.
- (b) The Facility will calculate a mid-market price where possible, derived from the average of all executable Bids and Offers.
- (c) Participants will have equal priority in receiving the RFQ and in transmitting and in displaying or communicating their responses. A tradable response to an RFQ on a Required Swap requires, during the Commission-determined phase-in compliance period, that a minimum of two Participants, and thereafter, a minimum of three Participants, not affiliated with or controlled by the requestor or each other, receive the request. A minimum number of requests is not required for an RFQ on a Permitted Transaction. There is no maximum number of Participants that may be requested and an RFQ may be sent to all market participants.
- (d) During the RFQ the Electronic Order Book displays all resting executable Bids or Offers and the best priced Bid or Offer is copied to the RFQ entry window. The best-priced Bid or Offer is anonymous in the same manner as are all resting executable Bids or Offers shown in the Electronic Order Book and displayed during the RFQ. Bids or Offers are also communicated during an RFQ by Voice Functionality, as applicable. The Facility will assist responders by publishing the pre-trade mid-market or calculated mid-market price, where available.
- (e) Responding Bids or Offers to the RFQ will display price and quantity and the identity of the responding Participants only to the requestor and/or the Participant’s Authorized Trader. Bids or Offers responding to an RFQ may be either executable or indicative. Responding Bids or Offers conducted via Voice

Functionality facilitated by an Execution Specialist may be communicated anonymously.

- (f) The requestor has the ability to select the Bid or Offer against which to be matched from among the responding and the resting Bids or Offers. The requesting Participant may also show an Offer or Bid to all responders. Any of the responders may lift or hit the requestor's Order. A requesting Participant may also show an Offer or Bid to a further minimum three Participants (which may include one or more of the responders to the initial request) subject to the provisions of paragraph (c)
- (g) Upon execution, the price and quantities of the transactions will be reported by the Facility with an identification that the transaction was executed using the RFQ procedure. RFQ trades exceeding in quantity the Swap's Block Trade size shall be reported in the time provided under Rule 510(d). Confirmations and objections may be made subject to the provisions of Rule 704.
- (h) The request for RFQ will remain open until:
 - (i) the requestor trades with a responder or with a Bid or Offer from the Order book;
 - (ii) the request is withdrawn where such withdrawal can be made at any time by the requestor or the Execution Specialist;
 - (iii) the request expires within the time specified in the RFQ without trading; or
 - (iv) the end of the Trading Day.
- (i) Duties of Execution Specialists.
 - (i) the Execution Specialist, upon receipt of a request for voice assistance in entering an RFQ into the Trading System, must enter the RFQ immediately into the Trading System. If a Participant requests delayed entry of a voice-assisted RFQ, the Execution Specialist must make a record of the time at which the request for assistance was first made with respect to the request for delayed entry.
 - (ii) the Execution Specialist, upon receipt of a request for voice matching of an RFQ, must make a record of the time at which the request for voice matching was first made and the number of counterparties which were requested to respond to the RFQ.

PART 8. CLEARING AND FINANCIAL INTEGRITY OF CONTRACTS

801. Scope.

Rules 802 and 803 shall apply to Required Transactions. Rule 804 shall apply to Permitted Transactions. Rules 805, 806 and 807 shall apply to both Required and Permitted Transactions.

802. Relation to Clearing Organization.

- (a) **Rules of Clearing Organization.** The Bylaws and Rules of the designated Clearing Organizations shall be applicable to the clearing of Swaps which are Required Transactions traded on or subject to the rules of the Facility.
- (b) **Cleared Swaps.** Every Swap executed on or subject to the rules of the Facility that is a Required Transaction will be forwarded by the Facility to the Clearing Organization selected by the Participant or its Authorized Customer directly to the Clearing Organization or via a Straight-Through-Processing (STP) hub.
- (c) **Choice of Clearing Organization.** If more than one Clearing Organization is available for clearing the Swap, each Participant and Authorized Customer may designate its choice of Clearing Organization for selected transactions by designating a specific Clearing Organization for each Order or RFQ.
 - (i) Participants or Authorized Customers may designate the Clearing Organization by hitting a Bid or lifting an Offer for the displayed price of a product cleared by a specific Clearing Organization. Participants or Authorized Customers may enable a general filter on Facility systems to view only prices for a selected Clearing Organization(s).
 - (ii) Trades executed as transactions to be cleared at a specified Clearing Organization will be subject to the collateral requirements of that Clearing Organization, including the timing of collateral funding requirements of that Clearing Organization.
 - (iii) Subject to the clearing authorization requirement of Rule 803, Participants may choose a Clearing Organization to which the Swap will be forwarded by the Facility. Such Clearing Organization shall be authorized or permitted by the Commission, or otherwise meet Commission requirements, to clear such Swaps. Such Clearing Organizations include but are not limited to the following:

Swap	Clearing Organization
Credit Default Swap Indices	ICE Clear Credit LLC, Ice Clear Europe Ltd., LCH.Clearnet SA
Interest Rate Swaps	LCH. Clearnet Ltd., LCH.Clearnet LLC, CME, Inc., Japan Securities Clearing Corporation

- (d) **Margin.** A Participant must comply with all margin requirements of the relevant Clearing Organization and its Clearing Participant, if applicable, and any applicable margin requirement set forth by Commission Regulation or Applicable Law.

803. Clearing Authorization Required.

(a) **Clearing Participant Authorization.**

- (i) Every cleared trade executed on the Trading System or subject to the rules of the Facility shall be cleared through a Clearing Participant authorized by the designated Clearing Organization for the given product.
- (ii) Each Clearing Participant by entering into a relationship to intermediate clearing on behalf of a Trading Participant as provided in subsection (b) of this Rule 803, shall be subject to, and shall be considered to have consented to, the jurisdiction of the Facility, in respect of such transactions, including the jurisdiction of the Facility to impose sanctions for violations under Rule 1016.

(b) **Trading Participant and Authorized Customer Authorization.** Each Trading Participant must establish and maintain a relationship with a Clearing Participant that will intermediate the clearing of the Trading Participant's Swap transactions and each Authorized Customer must establish and maintain a relationship with a Clearing Participant that will intermediate the Authorized Customer's Swap transactions. Each must:

- (i) identify to the Facility its Clearing Participant;
- (ii) ensure they do not request quotes, Bid or Offer or generally trade Swaps for a designated Clearing Organization without appropriate authorization; and
- (iii) notify the Facility of any change in relationship with a Clearing Participant. Such notification must be made prior to executing any trade on the Trading System or any cleared trade subject to the rules of the Facility.

(c) **Evidence of Agreement with Clearing Participant.** Evidence of an agreement between the Clearing Participant and its Trading Participant or between the Clearing

Participant and an Authorized Customer must be provided to the Facility in the form and manner requested by the Facility, and must be specific with respect to the products covered thereunder.

(d) **Termination of Clearing Authorization.** A Clearing Participant may terminate at any time its authorization of a Trading Participant or of an Authorized Customer by informing the Facility and as applicable the Trading Participant and the Authorized Customer. Notice shall be given in as promptly a form as possible and shall be provided in writing no more than twenty-four hours after being given by any other means.

(i) In the event the Clearing Participant notifies the Facility that it will no longer novate a Trading Participant's or Authorized Customer's Swaps, until the Trading Participant or Authorized customer establishes a relationship with another Clearing Participant acceptable to the Facility, the Facility will take immediate steps to:

(A) withdraw all of the Trading Participant's or Authorized Customer's resting orders from the Trading System,

(B) terminate the Trading Participant's or Authorized Customer's access to the Trading System; and

(C) terminate the Trading Participant's or Authorized Customer's access to execute trades subject to the rules of the Facility

804. Financial Integrity for Permitted Transactions.

(a) **Voluntary Clearing of Swaps.**

Permitted Transactions executed on or subject to the rules of the Facility that are not required to be cleared will only be cleared if both counterparties agree, prior to or subsequent to execution, to submit the trade to an agreed upon Clearing Organization. If the counterparties elect to clear a transaction prior to execution or at the time of execution, it will be forwarded by the Facility to the agreed upon Clearing Organization directly or via a Straight-Through-Processing (STP) hub. A Participant electing to clear a transaction must comply with all margin requirements of the relevant Clearing Organization and its Clearing Participant, if applicable, and any applicable margin requirement set forth by Commission Regulation or Applicable Law.

(b) **Credit Arrangements Required.**

Each Participant and Authorized Customer in order to enter an Order for an uncleared Swap transaction on or subject to the rules of the Facility must, upon request, provide evidence to the Facility that:

- (A) it has current Swap transaction documentation, including credit arrangement documentation, which would apply to the transaction;
- (B) it has current arrangements for the exchange of collateral; and
- (C) it meets any credit filter requirements adopted by the Facility, including updating any bilateral credit matrices where provided by the Facility.

805. Trades Not Accepted for Clearing.

- (a) **Clearing Certainty.** The Facility shall promote certainty of clearing by identifying to the Participant or the Authorized Customer, as applicable, that an Order for a cleared contract, if executed, would be within the clearing credit or trading limits which are applied by the Clearing Participant to the Person on whose behalf the Order has been entered.
- (b) **Trades Rejected for Clearing.** In the event that a Swap is rejected by the Clearing Organization to which it has been submitted, the Facility will so inform the Participants or Authorized Customers that are the counterparties to the trade. A trade for which the Facility has received a rejection notice from the Clearing Organization is void ab initio; *provided however*, nothing in this Rule shall supersede the procedures of Rule 515 which shall apply to Error Trades.
- (c) **Breakage Agreements Prohibited.** Participants are prohibited from requiring breakage agreements with other Participants as a condition of trading with them.

806. Disputes related to Clearing.

Disputes arising from or in connection with the clearance, delivery or settlement of positions shall be resolved pursuant to the Bylaws, Rule and procedures of the designated Clearing Organization.

807. Establishment of Daily and Final Settlement Prices.

- (a) The Facility shall calculate a daily settlement price for each Swap listed for trading on the Facility and priced that day via either firm or indicative orders. Such daily settlement prices shall be calculated in the same manner, shall be published to www.bgcsef.com and shall be subject to subsequent review and revision by each of the Facility's Clearing Organizations in accordance with each respective Clearing Organization's rules and procedures.
- (b) Calculation. The Facility will calculate daily settlement prices for Swaps receiving Bids or Offers through the Business Day only. Swaps listed for specific Clearing Organization clearing that do not receive any executable or indicative Bids and Offers in the order book on any particular day will not have daily settlement prices calculated.

The settlement price will be established using an algorithm which calculates the settlement price using the following hierarchy of price inputs:

- (i) the mid-price of the best executable bid/offer spread present at the close rounded to the nearest price increment; then
- (ii) the mid-price of an indicative Bid/Offer spread present at the close rounded to the nearest price increment; if none, then
- (iii) the most recent of the following:
 - (A) actual Bid;
 - (B) actual Offer;
 - (C) indicative Bid;
 - (D) indicative Offer; and
 - (E) last trade.

PART 9. BUSINESS CONDUCT.

901. Violation of Law.

It shall be prohibited for any Participant, Authorized Customer or Customer to violate or fail to conform to applicable provisions of the Act, Commission Regulations or any other law applicable to trading on the Facility.

902. Rule Violation.

It shall be prohibited for any Participant, Authorized Customer or Customer to violate or fail to conform to the Rules and procedures of the Facility or with any decision or order of a committee of the Facility or any order of any officer, employee or agent of the Facility when acting within his, her or its jurisdiction.

903. No Transfers.

No Participant shall transfer or assign such Participant's trading privileges. Any purported transfer or assignment shall not be binding on the Facility. Persons who acquire or succeed to the business of any Participant may obtain trading privileges only by application to the Facility pursuant to Part 3 of these Rules, except upon the prior written consent of the Facility if the Participant is succeeding to the business of a Participant solely as a result of the change in the corporate form of the Participant.

904. False Information.

It shall be prohibited for any Person to disseminate any false, misleading or knowingly inaccurate information, including reports concerning any Swap or market information or conditions that affect or tend to affect the price of any Swap executed on the Facility.

905. Manipulation Prohibited.

No person shall manipulate, or attempt to manipulate, the price of, or to corner, any Swap executed on the Facility, or in connection therewith the Underlying Commodity.

906. Prohibition on Misstatements.

No Person shall furnish false or misleading information or fail to furnish information in respect of such Person's activities on or subject to the Rules of the Facility, when requested by the Facility or any committee, officer, employee, or agent of the Facility, acting in the course of his, her or its duties.

907. Employees of the Facility.

It shall be prohibited to knowingly carry an account, enter an order or effect any transaction for any employee of the Facility, the Clearing Organization or any other Participant without the prior written consent of the employer (which may be in the form of a blanket consent to all orders and transactions entered or executed after such consent is given).

908. Abusive Trading Practices Prohibited.

No Participant, Authorized Customer or Customer shall engage in front-running, wash trading, pre-arranged trading, fraudulent trading, money passes, accommodation trading, any other manipulative activity prohibited by the Act or Commission regulation or disruptive trading practice (which includes any trading practice described in Section 4c(a)(5) of the Act or in applicable interpretive guidance issued by the Commission and in force at the time of the violation), or enter into non-competitive transactions on or subject to the Rules of the Facility except as otherwise authorized by these Rules, or execute any such Order on behalf of another with such knowledge of its nature.

909. Detrimental Conduct.

No Person shall engage in conduct or practices inconsistent with just and equitable principles of trade or conduct or practices detrimental to the best interests of the Facility.

910. Fraud Prohibited.

No Person shall use or employ, or attempt to use or employ, any manipulative device, scheme, or artifice to defraud, or engage, or attempt to engage, in any act, practice, or course of business, which operates or would operate as a fraud or deceit upon any person.

PART 10. DISCIPLINARY PROCEEDINGS.

1001. Scope.

The procedures of this Part 10 shall apply to any Person that is subject to, and that is bound by, the Rules of the Facility.

1002. Investigations.

- (a) **Investigation.** The Enforcement Staff of the Compliance Department and its designees is responsible for investigating possible violations of the Rules upon request from Commission staff or the discovery or receipt of information which, in their judgment, indicates a possible basis for finding that a violation has occurred or will occur. Investigations shall be conducted by the Enforcement staff in accordance with these Rules. The Facility may contract for the performance of specified functions assigned by these Rules to the Enforcement Staff of the Compliance Department. The Facility retains ultimate responsibility of the investigations.
- (b) **Investigation Report.** After conducting an investigation, the Enforcement Staff of the Compliance Department shall prepare a written report including the reason the investigation was initiated, a summary of the complaint, if any, the relevant facts, the Enforcement Staff's conclusions, analysis and recommendation as to whether disciplinary action should be pursued. This written report shall be produced within twelve months following the initiation of the investigation. If the Enforcement Staff has determined that a reasonable basis exists for finding a violation, it shall make a recommendation as to whether the Disciplinary Committee should proceed with the matter. The Enforcement Staff may also issue a warning letter to the Person being investigated or forward to the Review Panel of the Disciplinary Committee a recommendation that it issue a warning letter. A warning letter issued to the Person under investigation under this paragraph is not a penalty or an indication that a finding of a violation has been made.

The investigation report shall become part of the investigation file, which shall be maintained by the Compliance Department for a period of not less than five years after the completion of such report. The Enforcement Staff shall promptly provide the Disciplinary Committee with a copy of each investigation report.

1003. Review of Investigation Report.

The Review Panel shall promptly review each investigation report prepared by the Enforcement Staff. In the event the Review Panel decides that additional investigation or evidence is needed, it shall promptly direct the Enforcement Staff to conduct further investigation. Within a reasonable period of time not to exceed thirty days after the receipt of a completed investigation report, the Review Panel shall take one of the following actions:

- (a) If the Review Panel determines that no reasonable basis exists for finding a violation or that prosecution is otherwise unwarranted, it may direct that no further action be taken. Such determination must be in writing and contain a brief statement setting forth the reasons therefore.
- (b) If the Review Panel determines that a reasonable basis exists for finding a violation which should be adjudicated, it shall direct that any Person alleged to have committed the violation be served by Enforcement Staff with a notice of charges, thus commencing disciplinary proceedings pursuant to these Rules.
- (c) The Review Panel may also determine to issue a warning letter to the Person being investigated. A warning letter issued to Person under investigation under this paragraph is not a penalty or an indication that a finding of a violation has been made.

1004. Respondent.

A Person alleged in a notice of charges to have committed a violation shall be referred to as the Respondent.

1005. Notice of Charges.

A written notice of charges shall be served by Enforcement Staff on any Respondent as directed by the Hearing Panel. The notice of charges shall:

- (a) State the acts, practices or conduct in which the Respondent is alleged to have engaged;
- (b) State the provision of the Rules alleged to have been, or are about to be, violated;
- (c) State the predetermined penalty, if any;
- (d) State that the Respondent is entitled to a hearing on the charges upon written request served upon the Compliance Department within 30 days of service of the notice of charges and filed with the Hearing Panel of the Disciplinary Committee and that failure so to request a hearing within 30 days, except for good cause shown, shall be deemed a waiver of the right to a hearing; and

- (e) State that the Respondent is entitled to serve an answer upon the Compliance Department within 30 days of service of the notice of charges and to file such answer with the Hearing Panel and that failure in an answer to deny expressly any allegation or any charge in the notice of charges shall be deemed to be an admission of such allegation or charge.

1006. Service.

Service of a notice of charges or any other document in a disciplinary proceeding on a Respondent shall be made by personal delivery to the Respondent or the Respondent's agent appointed under Rule 303(e) or by first class mail addressed to the Respondent at the last address filed by the Respondent with, or otherwise known to, the Facility. However, if the Respondent is represented by counsel in the disciplinary proceeding, service shall be by personal delivery to counsel or by first class mail addressed to counsel at the last address filed by counsel with the Facility. Service of any document on the Compliance Department shall be made by personal delivery to the Compliance Department or by first class mail addressed to the Compliance Department, in either case at the address specified in the notice of charges. Filing with the Disciplinary Committee may be made by personal delivery to the Disciplinary Committee or by first class mail addressed to the Disciplinary Committee at the address specified in the notice of charges. Service by mail shall be complete when deposited in an official depository of the United States Postal Service. If service is made by mail, any time period in these Rules calculated with respect to the date of service shall be extended by a period of five days. Service may be effected through electronic mail or facsimile upon the agreement of all parties.

1007. Answer from Respondent.

- (a) A Respondent receiving a notice of charges may serve a written answer to the notice of charges upon the Compliance Department and file the answer with the Hearing Panel, provided that:
 - (i) the answer must be in writing and include a statement that the Respondent admits, denies or is without knowledge or information sufficient to form a belief as to the truth of each allegation.
 - (ii) failure to serve an answer within 30 days following the service of the notice of charges shall be deemed an admission of all allegations contained in the notice of charges.
 - (iii) failure in an answer to expressly deny any charge or allegation shall be deemed to be an admission of the charge or allegation; provided, however, that a statement of a lack of sufficient knowledge or information to form a belief as to the truth of an allegation shall have the effect of a denial of the allegation.

- (b) If the Respondent admits or fails to deny any of the charges in a notice of charges, the Hearing Panel may find that the violation of the Rules alleged in the charge has been committed and may impose a penalty no greater than the predetermined penalty, if any, stated in the notice of charges for such violation or violations. If no predetermined penalty was so stated, the Hearing Panel shall impose a penalty for each violation found to have been committed.
- (c) If the Hearing Panel imposes a penalty pursuant to paragraph (b) of this Rule, the Respondent and the Compliance Department shall be promptly served with a written notice of any penalty to be imposed and shall advise the Respondent that he or she may request a hearing on the penalty, provided that a written request for a hearing must be served upon the Compliance Department within 30 days following service of the notice and filed with the Hearing Panel. However, no hearing shall be permitted on a penalty that is less than or equal to the predetermined penalty, except for good cause shown. If the Respondent fails to request a hearing within 30 days following service of the notice, the Respondent shall be deemed to have accepted the penalty, and the decision of the Hearing Panel shall be the final action of the Facility.

1008. Right to Representation.

A Respondent shall be entitled to be represented by legal counsel or any other representative of the Respondent's choosing in any proceedings under this part of the Rule; provided, however, that this Rule does not constitute the basis for any claim that the Facility must furnish an attorney to a Respondent.

1009. Hearings.

- (a) If the Respondent has, in a timely manner, requested a hearing on a charge which is denied in the Respondent's answer or on a penalty imposed by the Hearing Panel pursuant to Rule 204 and this Part 10 (other than a predetermined penalty stated in the notice of charges), the Respondent shall have an opportunity for a hearing on the matter. Such hearing shall be promptly convened after fair notice to the Respondent.
- (b) Any hearing shall be conducted before a Hearing Panel of three members of the Disciplinary Committee.
- (c) The Respondent shall be entitled in advance of the hearing to examine all books, documents, or other tangible evidence in the possession or under the control of the Facility which are to be relied upon by the Enforcement Staff of the Compliance Department in presenting the charges contained in the notice of charges or which are relevant to those charges or the penalties.
- (d) The formal rules of evidence need not apply; nevertheless, the procedures for the hearing may not be so informal as to deny a fair hearing.

- (e) The Compliance Department shall be a party to the hearing and shall present its case on those charges and penalties which are the subject of the hearing.
- (f) The Respondent shall be entitled to appear personally at the hearing.
- (g) The Respondent shall be entitled to cross-examine any persons appearing as witnesses at the hearing.
- (h) The Respondent shall be entitled to call witnesses and to present such evidence as may be relevant to the charges or the penalties and the Compliance Department shall be entitled to cross-examine any witness called by the Participant.
- (i) The Facility shall require Persons within its jurisdiction called as witnesses to appear at the hearing and to produce evidence. It shall make reasonable efforts to secure the presence of all other Persons called as witnesses whose testimony would be relevant.
- (j) A substantially verbatim record of the hearing shall be made and shall become a part of the record of the proceeding. The record must be one that is capable of being accurately transcribed; however, it need not be transcribed unless the transcript is requested by Commission staff or the Respondent. The record shall be transcribed pursuant to Commission Rule 9.21(a) if the decision is appealed to or reviewed by the Commission. In all other instances, a summary record of the hearing is permitted.
- (k) The cost of transcribing the record of the hearing shall be borne by the Respondent if the Respondent requests the transcript or appeals the decision to the Commission. In all other instances, the cost of transcribing the record shall be borne by the Facility.
- (l) A penalty pursuant to Part 10 may be summarily imposed by the hearing panel of the Disciplinary Committee upon any person within its jurisdiction whose actions impede the progress of a hearing.

1010. Decision.

- (a) Promptly following the hearing, the Hearing Panel of the Disciplinary Committee shall render a written decision based upon the weight of the evidence contained in the record of the proceeding and shall serve a copy of its decision within 30 days upon the Compliance Department and the Respondent. The decision, shall be the final action of the Facility and shall not be subject to appeal within the Facility. The decision shall become effective at the time set forth therein the decision, which shall be not less than fifteen days after the written decision has been delivered to the Person disciplined or denied access. Where delivery is by U.S. mail, an additional three day period shall be provided prior to the decision becoming effective. *Provided, however,* that a decision may become effective in fewer than fifteen days if, as determined by the Facility and stated in the decision, such an action is necessary to protect the best interests of the Facility, the violation relates to timely submission of accurate records required for

clearing, or the disciplined Person consents to the penalty and the timing of its effectiveness. The decision shall include:

- (i) the notice of charges or a summary of the charges;
 - (ii) the answer, if any, or a summary of the answer;
 - (iii) a brief summary of the evidence produced at the hearing or, where appropriate, incorporation by reference of the investigation report;
 - (iv) a statement of findings and conclusions with respect to each charge, a complete explanation of the evidentiary and other basis for such findings and conclusions with respect to each charge and basis for imposing sanctions, and an indication of each specific Rule which the Respondent is found to have violated; and
